Profile

MERN Stack Developer and 2nd-year B.Tech Computer Engineering student with hands-on experience building full-stack web applications. Developed a production-ready Hospital Management System using React, Node.js, Express, and MongoDB. Strong in REST APIs, authentication, and responsive UI design.

My Skills

Frontend:
HTML, CSS, JavaScript, React, Tailwind CSS

Backend:
Node.js, Express.js, REST APIs

Database:
MongoDB

Tools:
Git, GitHub, Postman, Canva

Languages:
Java, Python (Basics)

PROJECTS

MediStream

- Built a full-stack healthcare management platform using MERN stack
- Implemented JWT authentication and role-based access
- Developed modules for patients, appointments, billing, and records
- Integrated email notifications using Nodemailer/Resend
- Deployed on Vercel & Render with GitHub version control

GitHub:
https://github.com/lagdhir-parth/Hospital_Management_System

Lost and Found Hub

- Developed a MERN-based web application to manage campus lost and found items
- Enabled users to report and search missing belongings through a centralized platform
- Implemented core full-stack development concepts including frontend–backend integration
- Strengthened hands-on experience with React, Node.js, Express, and MongoDB

EDUCATION

HSC Education 2022-2024

Shree Rajshakha Higher secondary school of science, Porbandar

Completed my HSC Education with 86%

SSC Education 2022

Sandipani Gurukul, Probandar

Completed my SSC Education with 84%

SOFT SKILLS

- Problem-solving
- Team collaboration
- Project documentation
- Time management
