PROFILE SUMMARY

B.Tech Computer Engineering student with a **9.5 CGPA** and hands-on experience building production-ready **MERN applications**. Experienced in full-stack development, **REST APIs**, **RBAC**, **JWT/OAuth** authentication, and responsive React applications, with additional experience delivering client websites end-to-end.

PROJECTS

HRM - Human Resource Management Platform

Tech: MERN, JWT, Framer Motion, Cloudinary, React Query, Resend, Google OAuth, LinkedIn OAuth, Jitsi, Multer, Node-Cron

- Built a full-stack recruitment & HR SaaS platform for candidates, recruiters, and administrators.
- Developed job posting, application tracking, resume management, company profiles, feedback/reporting, advertising, OTP verification, and video interviews.
- Built React 19 (Vite) frontend with Tailwind CSS, React Router v7, React Query, RBAC dashboards, file uploads, and Jitsi integration.
- Engineered Node.js/Express backend with MongoDB/Mongoose, JWT + refresh-token authentication, RBAC, Google/LinkedIn OAuth, and validation/rate limiting.
- Integrated Cloudinary, Resend, scheduled automation jobs, and secure media/email workflows.
- Delivered a scalable SaaS architecture with end-to-end full-stack ownership.

DJ PRAXX Website

Tech: React, Sanity CMS, Lenis.js, Howler.js, Tailwind CSS, Framer-motion,

- Developed a modern, interactive portfolio website for client DJ Praxx using React.
- Implemented smooth scrolling with Lenis and immersive animations using Framer Motion.
- Integrated Howler.js for seamless audio playback and an enhanced music experience.
- Built a responsive, modern UI with Tailwind CSS, optimized for desktop and mobile.
- Integrated Sanity CMS for dynamic content management, enabling easy updates without code changes.
- Delivered a high-performance, visually engaging website focused on music, branding, and user experience.

EXPERIENCE

Freelance Full-Stack Developer | 2025-Present

- Delivered production-ready full-stack applications for 3+ clients, from requirements to deployment.
- Built responsive React frontends using React.js, Tailwind CSS, and Framer Motion.
- Developed backend APIs, databases, authentication, CMS integrations, and third-party services.
- Collaborated directly with clients to deliver scalable, maintainable solutions.
